Dear Mr. Childress:

Re: Request to Modify
NPDES General Permit No. ING040250
IDNR #S-0367
Sun Energy Group LLC Hilsmeier #2 Mine
2701 W. County Road 1100 S.
Huntingburg, Indiana
Pike County

Our office has received your NPDES Notice of Intent submittal dated March 21, 2016, for modification of general permit coverage for the above-referenced site. As a result of this request the following changes are being made to this permit coverage:

Existing Outfall 028 (latitude 38°, 15', 43", longitude -87°, 05', 26", discharging to an unnamed tributary to Cup Creek) is to be removed from coverage; and

Existing Outfalls 004, 005, 008, 010, 011, 012, 013, 014, 016, 017, 018, 019, 020, 025, 026, 027, 029, 030, 031, 032, and 034 (latitudinal and longitudinal coordinates and receiving streams as listed on Attachment 1) are to be assigned a Post-Mining mine drainage status.

We have reviewed your request and determined that the activities associated with it are not the result of any new or expanded permitted mining operations. Mining activity is a process of sequential coal removal and reclamation and as mining progresses and reclamation follows these activities will not result in any unanticipated discharges to a receiving stream.

The request was processed in accordance with Section 402 and 405 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, et seq.), and IDEM's permitting authority under IC 13-15. We have been in contact with representatives of the IDNR in Jasonville, Indiana, who agree that Outfall 028 is ready to be removed from service. They have also confirmed that with the exception of Outfall 007 all of the outfalls requested for a Post-Mining status are ready for this reclassification. Outfall 007 needs to stay in Alkaline status because features draining to its sediment basin are contributing erosional soils to its impounded water, and it will soon need to be cleaned out. Therefore your petition to amend your permit coverage as is described above has been approved in accordance with Indiana rules promulgated under 327 IAC15-7 and 327 IAC 2-1.3. Coverage for the facility will now include all outfalls listed on the Attachment 1 to this correspondence.

The NPDES general permit identification number assigned to this facility in the previous approval will continue to apply, as will all other testing and reporting that are required under 327 IAC 15-7 using the forms that were sent to you previously. Additional copies of this form are available on the internet at the following web site:

Mr. Robert Childress Jr.

327 IAC 15-7 is also available on the internet at the following website:

<http://www.in.gov/idem/4087.htm>

Additionally, you will continue to receive the computer generated preprinted federal NPDES DMR forms. Both the state and federal forms need to be completed and submitted on a routine basis. If you do not receive the preprinted DMR forms in a timely manner, please call this office at (317) 232-8670.

Due to the quarterly reporting requirements of Post-Mining status outfalls these modifications shall be deemed effective on **July 1, 2016**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under 327 IAC 15-7 for all remaining outfalls remains effective, and will expire on **July 31, 2020**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that any person who is adversely affected or aggrieved by approval under the cited NPDES general permit rule may, within eighteen (18) days from the mailing date of this notification, appeal this acceptance by filing a written petition for administrative review with the Office of Environmental Adjudication, in accordance with IC 4-21.5-3-7. This petition constitutes a request for an adjudicatory hearing. The procedure for appeal is outlined in more detail on the attached page.

The Office of Environmental Adjudication will provide parties who request review of this approval with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan of our office at (317) 232-8703.

Sincerely,

Catherine Hess, Chief
